### **Examiner's Amendments to the Specification**

In page 1, underneath the title, insert the following:

--- This application is the National Phase entry of PCT/GB03/03538 filed 8/13/2003, which claims priority to British Patent Application 0218813.4, filed 8/13/2002.

---

The following is an **Examiner's Statement of Reasons for Allowance**:

Claims 1, 7, 10-12 are directed to isolated polynucleotides from *Ecteinascidia turbinata* used for identification of bacteria involved in biosynthesis of ecteinascidin compounds, specific homologs thereof with said function well as isolated host cell s comprising said products. Claimed polynucleotide are free of prior art. Further, the prior art does not teach or suggest preparing such specifically claimed polynucleotides. Hence said polynucleotides are also non-obvious. Since said polynucleotides are both novel and non-obvious, specifically claimed homologs thereof, as well as isolated host cells comprising said products are also novel and non-obvious.

**Claims 1, 7, 10-12 are allowed.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
